Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 22,23,25,27-32,34-37,39,41-45,47-49, 51-55, 60-61, 63, 65-69.

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 22-23, 25, 27-32, 34-37, 39, 41-45, 47-49, 51-55, 60-61, 63, 65-68, drawn to a pedestal, classified in class 156, subclass 345.51.
- II. Claim 69, drawn to an impedance matching layer, classified in class 428, subclass 544.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the pedestal does not require a symmetrical and circumferential impedance matching layer. The subcombination has separate utility such as in a pedestal that does not comprise a chuck, or a pedestal in which no portion of the impedance matching layer is positioned underneath the substrate, or in a pedestal in which the impedance matching layer is not bonded.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
